STH Guide to the NHS Research Passport System

What is a Research Passport?

The NHS Research Passport scheme is a UK-wide initiative introduced by the Department of Health. It was created to streamline the process to allow non-NHS staff to obtain an Honorary Research Contract or Letter of Access, in order to carry out research in the NHS. The Research Passport system establishes a common system of preengagement checks which conform to NHS employment standards, so that they are transferrable across NHS Trusts.

How does it work?

The Research Passport itself is a package of documents completed by the researcher with their substantive employer and then validated by NHS R&D offices. It lists the pre-engagement checks the substantive employer has carried out. When completed, it can be taken to other NHS organisations, thus removing the need for duplicate checks.

Benefits of the Research Passport System

- Provides clear guidance to all NHS trusts, thereby ensuring consistency
- Is a streamlined standard application system
- Clarifies responsibilities of NHS hosts and university employers
- Research staff can start research in the NHS faster
- Reduces valuable researcher time spent on administration
- Universities will be better informed about the activities of their research staff
- Simplifies the application process by minimising duplication, reducing delay and removing inconsistencies

Who does NOT need a Research Passport?

You will not need a Research Passport if:

- 1. You have a substantive contract of employment with the NHS or you are a student employed by the NHS*
- 2. You have an Honorary Clinical Contract with an NHS Trust e.g. Clinical Academics*
- 3. You are a student conducting research as part of your healthcare placement

Who needs a Research Passport?

- If you are **not** in any of the above 3 categories and have no contractual relationship with the NHS, you will need a Research Passport in order to carry out research in the NHS.
- Postgraduate students who conduct research within the NHS but who are not part of a healthcare placement need to complete a Research Passport.

STH Process

NHS to NHS Letter of Access

The NHS to NHS LoA gives permission for any research activity to be undertaken at the NHS organisation which hosts the research project. The researcher's substantive NHS employer remains fully responsible for undertaking and updating pre-engagement checks and the research host site can accept their existing relationship with the NHS.

The procedure for researchers who require an NHS to NHS LoA at STH is as follows:

1. An NHS to NHS proforma should be completed and authorised by the HR Department at the applicant's employing NHS Trust. For clinical academics, the University which is the substantive employer should issue the signed proforma.

^{*}If you are in category 1 or 2 above, you will require an NHS to NHS Letter of Access (LoA) – see below:

2. The applicant should then submit the original wet-ink signed form along with their CV and a completed STH DBS and OH form to STH R&D at the below address:

Zoe Whiteley Clinical Research Office Room D49, D Floor Royal Hallamshire Hospital Glossop Road Sheffield, S10 2JF

- 3. The researcher should provide details of what their proposed research activities will be in each NHS site and how long they need access at each site.
- 4. STH will then issue an NHS to NHS LoA to the researcher.

Applying for a Research Passport

Research Passport Application Form completion instructions (see pages below for detailed help with the form):

- 1. Sections 1-3 need to be completed by the applicant.
- 2. After Sections 1-3 have been completed, Section 4 needs to be completed and signed by the applicant's line manager (if staff) or academic supervisor (if student).
- 3. The form, along with a copy of the applicant's CV and a completed <u>STH DBS and OH form</u> then needs to be submitted to the Human Resources department of the applicant's substantive employer or place of registry if they are a student. They will undertake any required pre-engagement checks and complete and sign Section 5 of the form.
- 4. Once Section 5 is completed, the completed Research Passport, along with evidence of pre-engagement checks will be returned to the applicant, who will then need to complete the checklist (Section 6) and submit the Research Passport, along with their CV, <u>STH DBS and OH form</u> and evidence of any preengagement checks, such as DBS check (formerly CRB) and Occupational Health check to STH R&D at the below address. Please note that you will need to submit the wet-ink original Research Passport application form, along with original DBS and OH certificates (if required).

Zoe Whiteley Clinical Research Office, Sheffield Room D49, D Floor Royal Hallamshire Hospital Glossop Road Sheffield S10 2JF

5. STH will then validate the Research Passport and issue you with an Honorary Research Contract/Letter of Access, as appropriate.

Guidance on filling out the Research Passport form

Research Passport Application Form – Version 3 01/09/2012

Please refer to the guidance notes before completing the form.

	N/A □

Please send the completed form and original documents to the Lead R&D office. The completed form and original documents will be returned to you. This package of documents will be used to validate your completed Research Passport form. You may then, and where relevant, provide the Research Passport to other NHS organisations.

You must inform all NHS organisations that have received this Research Passport of any changes to the information supplied above. Failure to do so may result in withdrawal of your honorary research contract or letter of access. As part of the quality control procedures for the Research Passport, random checks on the accuracy of the information held on this Research Passport may be made.

Sections 7 and 8 will be completed by the R&D Departments of the Trust/s you are applying to

Frequently Asked Questions

Q. Does the Research Passport allow me to view patient data?

A. A Letter of Access or Honorary Research Contract (obtained via a Research Passport) outlines the responsibility and accountability of yourself, the Trust and your employer whilst you are on Trust premises. It does not give you permission to access to patient data. Research team members outside of the clinical care team can only access patient data if this access is clearly outlined in the ethically-approved patient information sheet and informed consent form, which has been signed by the patient and also covered by suitable data protection arrangements.

Q. I have already submitted my Research Passport to other NHS Trusts. What do I do?

A. If another NHS Trust has already completed Section 8 of your Research Passport application form, then you must send us scanned copies or hard copies of the following:

The completed Research Passport application form A copy of your CV A completed STH DBS and OH form

Evidence of any pre-engagement checks you have had, such as DBS (formerly called CRB) and Occupational Health

These should be sent to:

Zoe Whiteley Clinical Research Office Room D49, D Floor Royal Hallamshire Hospital Glossop Road Sheffield, S10 2JF

If Section 8 has **not** yet been signed off, then send wet-ink originals of all of the above to the same address.

Q. I already have a Research Passport for a certain project, but need to add more. What do I do?

A. Complete a Research Passport appendix page for your new project/s and submit it to R&D at each site you need access to for that project.

Q. What if I am not employed by a university or NHS Trust and am not a student either?

A. If you are employed by an organisation which is not a university or NHS Trust, you will need to apply for an Honorary Contract through the Human Resources department at STH.

The process is as follows:

- Your nominated STH manager would be the project's Principal Investigator. They will need to complete the OH1 and CRB Assessment forms (available from zoe.whiteley@sth.nhs.uk).
- You will then need to complete the Honorary Contract Application form (available from zoe.whiteley@sth.nhs.uk). Once you have completed this, please send it to your PI.
- The PI will then need to send all 3 completed forms together to the Honorary Contract Team: HonoraryContractRequest@sth.nhs.uk
- If you require any help with this process, please contact STH Human Resources on 0114 305 2503. Please
 be advised that the usual turnaround time for Honorary Contracts is 8 weeks from the submission of all
 completed documents.

Help & Contacts

Responsibility for obtaining a Research Passport lies with the individual researcher. If you are unsure whether you require a Research Passport, please contact Zoe Whiteley (zoe.whiteley@sth.nhs.uk) for advice.

Useful Links and Documents

Further information and guidance is on the NIHR website.

University of Sheffield - Staff

If you are a member of staff and the Research Passport process applies to you, please see the <u>University of Sheffield website</u>

Your key contact is:

Department of Human Resources at the University of Sheffield: Jennifer Newton - HR Assistant jennifer.newton@sheffield.ac.uk ext. 21634

University of Sheffield - Students

If you are a postgraduate student and the Research Passport process applies to you, please see the <u>University of Sheffield website</u>

Your key contact is your academic supervisor and PGR secretary in the first instance. In case of any further queries, contact:
