

Poster number	Title	Presenting author
1	Examining the role of patient values in decisions about long-term enteral feeding: a qualitative study	Sean White
2	Paper versus online recruitment: data collection methods affect the sociodemographic and health profile of the sample	Sharon Caunt
3	Real world evaluation of healthcare innovations: Lessons learned from the Sheffield Test Bed programme	Angel Jimenez-Aranda
4	TRISTAN-ILD study: Development of imaging biomarkers for the detection and monitoring of drug-induced interstitial lung disease	James Eaden
5	Facilitators and barriers to optimising nutrition to residents with dysphagia in care homes: a qualitative study	Sue Pownall
6	Aerobic exercise interventions reduce blood pressure in patients after stroke or transient ischaemic attack: a systematic review and meta-analysis	Ali Ali
7	The development of a healthcare professional training programme to support exercise behaviour in prostate cancer survivors (The STAMINA programme)	Rebecca Turner
8	De-Mystifying Research: Engaging Clinical Management Teams	Tom Almond
9	Bridging the Gap: Mental Health Care within District Nursing:- Results from a systematic review and project evaluation	Sally Ohlsen
10	Developing the LUN-MS: a questionnaire to identify the unmet needs of people with Multiple Sclerosis	Charlotte Kirkland
11	Current UK physiotherapy practice in patients with pulmonary hypertension	Carol Keen
12	Novel electrical impedance device of the tongue as a new biomarker for amyotrophic lateral sclerosis	Harry McDonough
13	Accurate automated measurement of polycystic kidney volume	Jonathan Taylor
14	"Diagramming" as a way to involve users in qualitative data collection and analysis	Joanne Bird
15	Patient and Public Involvement: The Community Elders Panel	Anne Silvester
16	The right resource at the right time – the effect of clinical and PPI involvement on recruitment to the Endometrial Scratch Trial	Clare Pye
17	Making the impact of research conducted in NHS organisations visible: development of an impact tool for research (VICTOR Visible the	Natalie Jones

	ImpaCT Of Research)	
<b>18</b>	Structural neural correlates of anosognosia in early Alzheimer's disease	Jose Manuel Valera-Bermejo
<b>19</b>	"Your teeth you are in control". Development and testing of a Cognitive Behavioural Therapy resource for children's dental anxiety	Zoe Marshman
<b>20</b>	The PodPAD project: a podiatry-led integrated pathway for people with peripheral arterial disease in the UK – a pilot study	Lisa Farndon
<b>21</b>	The WorkingWin Health Led Employment Trial – testing Individual Placement and Support co-located in healthcare.	Ellie Pearson
<b>22</b>	SELIMETRY – improving treatment options in iodine refractory differentiated thyroid cancer	Jonathan Wadsley
<b>23</b>	Wearable sensors can accurately characterise gait abnormalities related to disease severity in patients with Multiple Sclerosis	Lorenza Angelina
<b>24</b>	Impact of dysphagia assessment and management on risk of stroke-associated pneumonia in acute stroke: A systematic review	Sabrina Eltringham
<b>25</b>	Developing research in the Community Occupational Therapy Service for frail older people: Opening OTIS	Ali Madden-Fitzgibbon
<b>26</b>	Cognitive stimulation in patients with relapsing-remitting multiple sclerosis: effects on cognition, quality of life and MR functional connectivity	Riccardo Manca
<b>27</b>	Size and connectivity of the human Ventral Tegmental Area: Their link with distinctive neurocognitive signatures of Alzheimer's disease	Matteo de Marco
<b>28</b>	Developing family-centred care in a neonatal Intensive care unit: An action research study	Carol Skene
